Titel: Never Thought

## Verse 1:

Looking out to find the sun  
shivering from the fear  
Just trying to smile  
through a thousand tears

A different kind of life  
A different kind of man  
A different kind of love  
Just trying to fit in

## Prechorus:

Stop pointing your finger at me  
Stop talking, just let me be  
Stop judging me, please  
You won't bring me to my knees

## Chorus:

Never thought of giving up  
Never thought of giving in  
Never thought of slowing down  
Trying to find one of my kin

Have to prove that I'm alive  
Need to show I can survive  
Never thought that I'm that one  
But I'm still our Father's son

## Verse 2:

Many things that I regret  
Many things I can't forget  
Lying awake at night  
Thinking about what's wrong and  
right

But I try to close the door  
Not feeling guilty anymore  
They said: That's the way it'd go  
Already feeling like a whore

## Prechorus:

Stop pointing your finger at me  
Stop talking, just let me be  
Stop judging me, please  
You won't bring me to my knees

## Chorus:

Never thought of giving up  
Never thought of giving in  
Never thought of slowing down  
Trying to find one of my kin

Have to prove that I'm alive  
Need to show I can survive  
Never thought that I'm that one  
But I'm still our Father's son

## Prechorus 2:

Now I got all the symptoms  
of a boy with a broken heart  
Don't treat me differently  
Just help me to restart

## Chorus:

Never thought of giving up  
Never thought of giving in  
Never thought of slowing down  
Trying to find one of my kin

Have to prove that I'm alive  
Need to show I can survive  
Never thought that I'm that one  
But I'm still our Father's son
